

# Sergio Alfaro

Software Developer

Heredia, San Pablo  
+506 83228111  
sergioalfaro2807@gmail.com

## TECHNICAL TOOLS

**Languages:** Java, JavaScript, HTML/CSS, C++, C#

**Cloud Computing:** Google Cloud Platform, Azure

**Database:** SQLServer, Oracle, MongoDB

**Version Control Software:** Git, TFS

## Projects

### **Xeeker, Cenfotec**

2019

It was a project developed in the "Proyecto 2" course at the University with a team and created a website similar to Airbnb.

We worked on technologies such as C #, Razor, HTML / CSS, Bootstrap, JQuery, ISS, SQLServer

We used many APIs like Paypal, Cloudinary, Sendgrid, Telegram, Google Maps, Azure and worked with TFS for the control version software

### **Google Cloud Platform, Cenfotec**

2020

I built a web page with React and connected to Google Cloud Platform to learn about cloud computing (Cloud Build, Cloud Run and Container Registry, Docker) and used Firebase as storage

I used a Restful Web Service developed with Spring Boot and worked with Github for the control version software

## EDUCATION

### **Liceo Samuel Sáenz Flores, Heredia - High School Diploma**

2013 - 2017

### **Cenfotec University, San José, Montes de Oca - Bachelor of Software Engineering**

2018- Present

## SOFT SKILLS

Respect

Team work

Open-minded

Ability to adapt to new technologies

## LANGUAGES

Native Spanish

English level B2

## HOBBIES

Programming

Music

Learn things everyday

Movies

Play the guitar
